

1ST NURSE REGISTRY

DECLINATION OF INFLUENZA VACCINATION

My employer, 1ST NURSE REGISTRY, has recommended that I received influenza vaccination in order to protect myself and the clients I serve.

I acknowledge that I am aware of the following facts:

- I cannot get the influenza disease from the influenza vaccine.
- If I become infected with influenza, even when my symptoms are mild, I can spread severe illness to others.
- Influenza is a serious respiratory disease that kills an average of 36,000 persons and hospitalizes more than 200,000 persons in the United States each year. • Influenza vaccination is recommended for me and all other healthcare workers to prevent influenza disease and its complications, including death.
- If I contract influenza, I will carry the virus for 24-48 hours before influenza symptoms appear. While carrying the virus it can spread influenza infections to clients.
- I understand that that the strains of virus that cause influenza infection change almost every year, which is why a different influenza vaccine is recommended each year.
- The consequences of my refusing to be vaccinated could endanger my health and the health of those with whom I have contact.

I have read and fully understand the information on this declination form and I understand that I may change my mind at any time and accept influenza vaccination, if vaccine is available.
